

# The Park Federation

## ACADEMY TRUST

### From Global Park 60 to Global Park 100

Through our partnership with ActionAid, every one of our ten academies sponsors children across the globe where the need and challenge is great. This wonderful achievement is only possible because of the generosity of children, families and staff members in our academies.

Collectively, as a Federation, we now proudly support 100 children across the world, a milestone that marks our journey from our starting point of Global Park 60 to Global Park 100.

Throughout the year, pupils, staff, and families across our schools raise funds through creative events, challenges, and acts of generosity. These contributions ensure that our sponsored children can attend school, access healthcare, and grow up in safer, more resilient communities.

But the impact doesn't flow in one direction; Global Park 100 is a two-way educational road. Our pupils learn about the world beyond their immediate experience and recognise both the challenges and the incredible strengths within other cultures. Our aim is for young children in our academies to feel a bond with children globally.

We are proud to have reached this milestone together. Now, our focus is on sustaining Global Park 100, learning even more from one another, and ensuring lasting impact for every child we support.

Thank you to our wonderful school communities for making this possible.
